

REGAL CUTTING TOOLS

REGAL CUTTING TOOLS IS WORKING FOR YOU

With the recent purchase of a HAAS CNC Vertical Machining Center, we are taking our R&D to the next level. Whether it is machining exotic materials, working with innovative surface treatments, or testing our tools made from premium steels, we are now better able to serve the needs of Industry and most importantly, you "The Customer."

Below you see our Product Development Engineer, working on an application.
